- Pulling out to 16" and back in to 2.6" from the wall gives your TV smooth moves. Swivel your TV 150 degrees to the left or right to get all the views your room could ever need.
- Mounting has never been so easy: 30 minutes to install on 16" studs, with all hardware included and pre-divided. Our U.S.-based customer care team members will even pick up the phone on Sundays... seriously.
- Window glare bugging you? 15-degree tilt capability makes adjustments easy. No tools, no fuss, no hands. Just kidding, you'll need your hands.
